

Re TPV rules. With the increase in Competition and confusion re several issues of Local vs Local Toll vs Ld. and Other Charges not mandated by State, fed, or local gov. I would like to recommend that all TPV calls Local, Intralata, and Ld have all points covered. Ie: for Ld pic. We are not switching your local service. When you make Local Toll Calls you would like to use ?? also require all TPV sessions to list any extra fees not required by state fed or local gov. also have them list the USF fee on each call. This way the playing will be fair to both the cust and the co's providing the services. Thank you Gary Sanderson
